L'artigianalità made in Modena

Exclusive models of the resin in a limited edition of 200 pieces.

"If you ask a child to build a toy almost certainly will make a toy car racing."

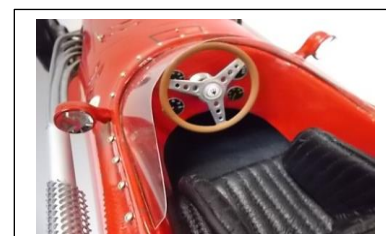

Well ... For not being more like children to us still think he is.

And so with so much passion we made some limited edition reproductions from scratch, using photographs, researching books, looking and continually seeking, finding solution to problems of realization and Assembly without need for computer or automatic machines.

We wanted throughout stay true to the artisans of the past, cutting, sawing, filing, caulking up to realize, unique items, maybe not perfect, but with a soul and a heart. And all this is done in MODENA establishment for MASERATI and within walking distance from the birthplace of Enzo Ferrari, in a small workshop that slightly deviates from historical FERRARI and MASERATI still present in our territory.

Like all cars built in Modena also these are a work of art, you won't find another equal, similar, but not equal, just because it is made entirely by hand.

Often ask us to give a value to our work, but the only right answer to give is that what we do has no value, you can't "estimate" the passion, dedication and put yourself in what you create. And it is for this reason that the MASERATI is as unique as the models that we have created for you.

*Modello
Limitato 200pz.*

MA250FMO

Maserati 250F 1954 Presentazione Autodromo di Modena PROVA

OFFICIAL LICENSEE : LA MINI MINIERA sas Via Vinaj,25 – 12100 Cuneo ITALY
